

MOLD CLEANERS:

Mold Cleaner Plus Degreaser 4 No. 46910

No chlorinated solvents. Removes silicones, grease, oil and wax build-up o mold surfaces without need for wiping.

On / Cycle Mold Cleaner No. 44212

At the press warm mold cleaner. Use for multi-purpose cleaning as well as equipment cleaning.

Next Gen Cleaner No. 46410

Powerful, biodegradable cleaner Meets or exceeds the toughest health and safety issues, CLEANING POWER.

Resin Remover Mold Cleaner No. 41914

Powerful solvents to remove resin build-up and most color deposits of many resinous plastics.

Citra Cling Mold & Metal Cleaner No. 46515

Foaming cleaner is a superior clinging action allows for maximum cleaning. Water-based cleaner

Plastic Cleaner with FOAM action No. 41515

Foaming spray to effectively remove oil and dirt marks from all plastics, even sensitive polycarbonates.

Mold & Metal Wipes No. 46370

Fast, convenient, cleaning towels quickly clean almost any surface*. Use for preparing molds for production.

Polish Mold Cleaner Compound No. 43310

Polish cleaner removes stains and mold deposits. Conditions mold for faster startups and improved releasing.

RUST PREVENTIVES

Mold Shield Dry Rust Preventive No. 42910

New ultra-dry formula delivers which will not penetrate into moving parts. Non-silicone and non-wax formulation.

Acid Vapor Neutralizer Inhibitor No. 44011

Formulated to protect plastic molding dies while in storage from corrosive attack by hydrochloric and hydrobromic acids.

NO-Rust Preventive & Inhibitor No. 40212

The one-step rust preventive that contains both neutralizer and rust preventive. Ideal for plastic mold protection.

Quick Rust Preventive whit Red No. 42810R

Dry formula makes oils stay where they are sprayed RED tracking color Fast clean up. Two years protection.

LUBRICANTS

Silicon Spray Lube No. 42112N

Silicone lubricant. An all-around general purpose lubricant for use on all kinds of machinery.

Heavy-Duty Release & Pin Lube No. 54912

An ideal lubricant for the front half of ejector pins, lubricant minimizes the possibility of leaching out onto molded parts.

Penetrant Plus & Lubricant No. 41812

Non-silicone PTFE-base formulation penetrates and frees frozen parts. Lifts and replaces moisture with protective film.

Super Grease Lubricant No. 43310

Lubricant grease with operating temperatures from -45F to +650F. Clear, clean, non-yellowing grease. Excellent dielectric.

MOLD RELEASES

Econo-MIST Silicon Mold Release No. 41612N

A light-duty mold release. NSF M1 designated Food Grade Lubricant. Is non-staining and odorless. Recognized by UL.

Quick Lecithin Mold Release No. 44812E

A medium-duty, non-silicone, paintable, all-temperature lecithin mold release agent that's fast-drying on cold and hot molds.

Polycarbonate Mold Release No. 41412

A heavy-duty, paintable mold release agent. Biodegradable & odorless. No crazing or blemishing. Recognized by UL.

Quick Paintable Mold release No. 44712E

A medium-duty, all-temperature paintable mold release agent that's fast-drying on cold and hot molds.

Silicone Mold Release Agent No. 40112N

A heavy-duty, agent that provides faster molding & more production. Approved for food machinery(++). Heat-stable.

Pure EZE Mold Release Agent No. 41212N

A non-silicone, paintable, all-purpose mold release agent. Neutral white-oil-based release contains no lecithin.

Universal Mold release No. 42612H

A heavy-duty, non-silicone, paintable mold release. FDA approved lubricant. Colorless.

Zinc Stearate Release Powder No. 41012N

A non-silicone, paintable mold release agent. Lubricant powder. For polysulfones and rubber molding and more.

Thermoset Mold Release Agent No. 45414

Mold release agent made with synthetic carnauba wax. Contains no silicones or oils.

Dry Film Lube Release Agent No. 41112N

Mold release agent formulated for deep draw molds. More durable bonded formulation.

Paintable Mold Release No. 41012N

A light-duty, paintable mold release agent permits post-production part decoration. Paint over it. Plate over it.

Hi-Temp 1800 Release No. 41012N

Contains boron nitride for molding at temperatures up to 1800F. Excellent for die-casting metals.

PURGING

NPT Purging Compound No. 451-05

Purging compound requires no mixing or preparation time. Shortens purge cycle time. Eliminates need for multiple purging products. Removes all traces of barrel residue.

P.D.Q. Liquid Compound No. 43432

Liquid purging compound works with carrier for effective resin to resin and color to color changes. Purge quickly at a fraction of the cost of conventional purges.

Charge It Re-chargeable Can No. 43600

Refillable, rechargeable tank can be filled with liquid product and charged with compressed air.
